OBJECTIVE

IT Graduate interested in artificial intelligence and mobile application development. Eager to apply my knowledge to build robust applications and develop innovative AI-driven solutions.

EDUCATION

Bachelor's degree in Information Information Technology (IT)
King Abdulaziz University (KAU)

- GPA: 4.98 / 5.0 | Five Certificates of Academic Excellence

2021 – 2026
Jeddah, KSA

GRADUATION PROJECT

LUMIN — Smart Home Energy Management System

- Build a smart recommendation engine that analyzes solar production and device consumption data to suggest the optimal time and device for solar-powered operation.
- Developed an automated scheduler delivering personalized and general energy-saving tips on a weekly cadence with daily-limit enforcement to prevent duplicates.
- Integrated Firebase Cloud Messaging (FCM) for real-time push notifications, with in-app notification history stored in Supabase.

Aug 2025 – Jan 2026

EXPERIENCE

IT Intern – Innovation & Digital Transformation Department
Petrolube Oil Company

- Developed a Customer Complaint Management System using Microsoft Power Apps.
- Designed real-time SLA dashboards.
- Improved complaint tracking and operational efficiency.

Jun 2025 – Aug 2025
Jeddah, KSA

App Developer
TechyTag (Student Startup)

- Developed Flutter application features and reusable UI components.
- Improved application performance and user experience

Jul 2024 – Jan 2025
jeddah,KSA

Leader – Culture & Art Committee
KAU

- Led a team of 30+ volunteers.
- Planned and managed university events
- Coordinated meetings and delegated responsibilities
- Improved collaboration across committee members

Sep 2024 – Jun 2025
jeddah,KSA

PROJECTS

Loan Approval Prediction
Data Mining Course Project

- Developed machine learning models to predict loan approval decisions.
- Performed data preprocessing, including cleaning and feature engineering.
- Evaluated and compared Random Forest models using Python libraries such as Pandas and Scikit-learn

2025

Anis App
Entertainment application for kidney patients

- Focused on innovative UI/UX design to improve the patient experience.
- Used creative thinking to design a user-friendly UI.

2024

Golf car Mangement System
Advanced Programming Project.

- Java-based platform for golf car reservations at King Abdulaziz University.
- Utilizes JFrames, Threads, Networking, and Exception Handling for seamless functionality and performance.

2024

VOLUNTEERING

Volunteer in organizing Engineering Day 2024
King Abdulaziz University

2024

General Supervisor for the 2023-2024 Graduation Ceremony
Faculty of Computing and Information Technology.

Over 100 certified volunteer hours on the Volunteer Work Platform, contributing to various activities and areas.

CERTIFICATES

Prerequisite Courses of Artificial Intelligence - Mathematics (KAUST Academy+coursera , 2025)

Advanced Artificial Intelligence Course (by KAUST Academy, 2026)

CCNA: Switching, Routing, and Wireless Essentials (Issued by Cisco Networking Academy through FCIT, King Abdulaziz University | Completed: December 2025)

AWARDS

1st Place in Jeddah Through Global Eyes Track- Jeddah Hackathon for Cultural and Recreational Tourism	2025
Jeddah Cultural Exchange Center, KAU	
2nd place in Sparkthon Hackathon	2024
University of Business and Technology	
2nd place in the Fikra Hub competition	2024
Fikra Hub,KSA	
Top 100 Finalist, 2024 Google Developer Student Clubs Solution Challenge	2024
Google Developer Student Clubs
